

Texas Association of Cardiovascular and Pulmonary Rehabilitation

Submission instructions for poster presentations.

The TACVPR Board of Directors is interested in displaying clinical pathway/QI projects, and/or clinical/scientific abstracts at the annual meeting.

The board wants to both acknowledge “work well done” and share the information with all Texas members. Please see the following criteria for help in the development of your poster presentation.

Criteria:

1. Please submit your information, poster title and brief summary content on the bottom of this form. Email the form to tacvpr_2005@yahoo.com.
2. Once your poster is accepted for display, the title will be included in the TACVPR conference syllabus.
3. Your poster title will appear as originally submitted, so please check spelling and grammar for accuracy.
4. Submission of a poster or abstract constitutes commitment of the author to be present at the TACVPR conference.
5. Please prepare a poster no larger than 47 by 70 inches for display. The poster will be displayed in the exhibit area on Friday and Saturday. For those posters displayed on cardboard, there will be easels available for appropriate presentation. Non stand-alone posters will be placed on an available presentation board. Please specify at the bottom of this form which type of poster (cardboard/non stand-alone) you will be submitting.
6. Please come to the registration desk on the day of conference for instructions on how and where to display your poster.
7. The TACVPR board enthusiastically welcomes all your ideas as we look forward to the development of the poster presentation process in years to come!
